

# Saint-Pierre-et-Miquelon - "The Fox" of 1952

## The first two stamps issued for Air Mail rates.

*Saint-Pierre and Miquelon is a small French archipelago of 242Km<sup>2</sup> located in North America, near Newfoundland (Canada). It has issued stamps since 1885.*

After the Second World War, Several businessmen on the Islands of Saint-Pierre-and-Miquelon decided to import Silver Foxes to harvest their pelts. Dozens of these animals were imported into the archipelago and the first "Fox Ranches" were created.

In **1952**, the French Overseas Philatelic Bureau, following the advice of local dignataries, decided to commemorate this unusual enterprise by issuing the first two Air Mail stamps of the Islands.

The purpose of this study : to show the the two values issued on **October 10, 1952**, 8 franc and 17 franc denominations. They were important because they corresponded to the **first St. Pierre and Miquelon values issued for "Air Mail " rates to France and abroad** subsequent to the start of an air link from the Islands.

*A fox in the arms of the breeder (1950).*

All of the elements related to this first important Air Mail rate issue, designed and engraved by Pierre Munier, can be and are shown in this specialized « One Frame Exhibit ».

These include artist's drawings, the unique steel die and roll (auctioned in 1999), the artist's proofs including the « bon à tirer » and « bon pour la gravure », the deluxe proofs, the complete sheets, the imperforate stamps, the first day of issue on postcards, and finally very significant covers including one with the Canadian "Paquebot Posted at Sea" cancellation.

The unique pieces to date  
are mentioned **in red**.

**Unique steel roll** which allowed printing on the cylinder as many times as stamps per sheet.  
**Shown in box outside the frame.**

### Plan :

- Pages 2-4: Drawings of the artist
- Page 5: Original steel die and roll
- Page 6: Artist's proof
- Pages 7-8: "Bon à tirer" and "Bon pour la gravure" proofs
